Message from the Vice Chancellor

We wish to present this unique University dedicated to building industry ready talent with focus on specific domains of Energy, Logistics, Aviation, IT, Industrial Safety and more since inception in 2003.

At Centre for Continuing Education, we understand the need of corporates to build an exceptionally talented workforce, by providing appropriate education and training programs. We have been successful in doing so with multiple corporates year on year with excellent feedback.

Our expertise in the domain areas, well researched & designed programs and strong & dedicated faculty teams to deliver these programs will bring in exceptional and desirable outcomes. Every corporate is unique in terms of its need and expectation from education and training; taking this into consideration our programs come with a unique feature to build customized content and andragogy to suit each corporate's need.

We bring our expertise to build strong and sustainable partnership with your organization. Welcoming you again to UPES – Centre for Continuing Education.

Dr. Deependra Kumar Jha

Vice Chancellor, UPES

About UPES

UPES, Dehradun has emerged as the single largest creator of specialized talent for extremely niche high growth sectors and domains. Our ready-to-deploy, corporate-ready students have received excellent response from the industry. The programs offered by UPES are customized to the requirements of the industry; giving them edge in both academic and application strengths in their chosen domains. UPES encourages and initiates continuous feedback from industry experts and practicing management professionals, in making its programs nationally / globally competitive and aligned to the ever changing demands of the industry.

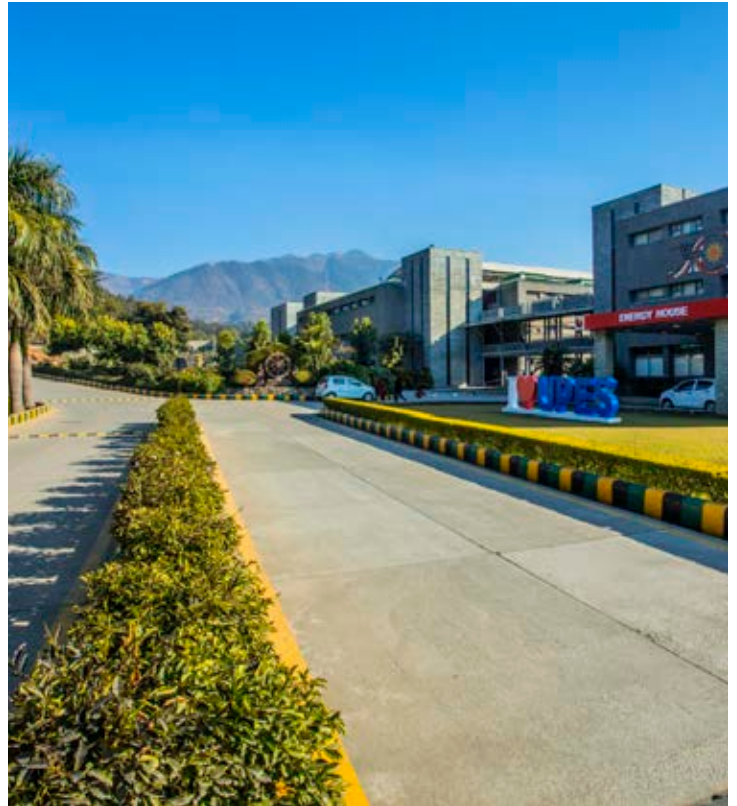

We are pleased to share that top-notch MNCs and Blue-Chip Indian recruiters across domains & industries have been visiting our campus regularly for augmenting their talent pool.

Centre for Continuing Education - CCE

A Dedicated Centre for Working Executives and Corporate Education

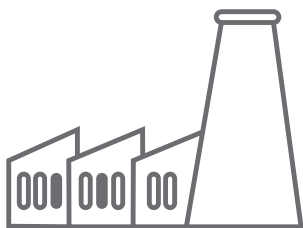

Welcome to the Centre for Continuing Education (CCE) at University of Petroleum & Energy Studies. We are the division dedicated for the skills and professional up gradation of working professionals. We focus on industry domains that are high in growth and provide immense opportunities to the professionals working in these domains.

Sectors we focus on are the major drivers of economy and employment generation at present and for the future. We are proud to share that we have more than 5,000 alumni working successfully in India and Abroad with best of organizations in their respective fields.
